

Vulnerability in Southeast Asia Household Survey Vietnam / Thailand 2013 Village Head Questionnaire

Introductory statement

We are German university researchers working together with researchers from Thailand and Vietnam to study the situation of people in the rural areas. We are especially interested in the role of risk in the livelihood of rural people. In your village we interview 10 households. We thank you for your cooperation. Now we also would like to ask you for some information about your village in general.

We assure you that all information you give during the interview is kept strictly confidential. Data will be used for scientific purposes only and will not be given to any outside person. As a sign of our great appreciation that you take your time for our interview please accept this small gift from us.
