

WHO CAN TAKE PART IN

- Researchers;
- Lecturers;
- Students;
- ...

TOPICS

- Opportunities of using the TVSEP database;
- Examples of research using TVSEP data;
- Further discussions.

PRESENTERS

- Prof.Dr. Hermann Waibel, Prof.Dr. Ulrike Grote,
- Dr. Rattiya. S. Lippe, Research Database Manager: TVSEP-LUH;
- Dr. Nguyen Trung Thanh, Assistant Professor, Institute for Environmental Economics and World Trade;
- Dr. Nguyen Duc Loc, Director, Center of Agricultural Policy in South Vietnam;
- Assoc. Prof. Dr. Suwanna Praneetvatakul, Kasetsart University, Thailand

You are cordially invited to

SEMINAR

INTRODUCING TVSEP PROJECT

9 - 12 A.M, 29 MARCH 2017

MEETING ROOM NO.3 – HUAF

102 Phung Hung, Hue

The Thailand Vietnam Socio-Economic Panel (TVSEP) project is an international research project sponsored by the German Science Foundation (DFG). Part of the project is to collect and analyse a large amount of socio economic panel data of rural households in six provinces of Vietnam and Thailand. TVSEP has already carried out six panel waves of data collection starting in 2007. The database is unique and offers enormous potential for research that can result in publication in high level international journals.

*Please register **before 22nd March 2017***
